THE COLLEGE OF WILLIAM AND MARY •

TO ALL SECOND, THIRD AND ML&T STUDENTS:

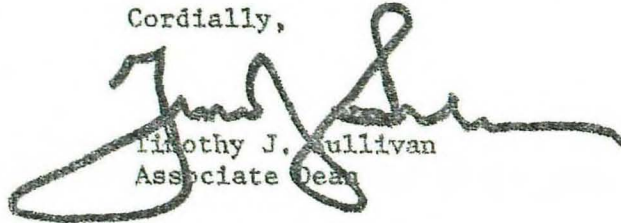

You will find enclosed with other materials that you have received a listing of new courses and seminars that will be offered during the forthcoming year. Most of these descriptions are self-explanatory. A brief comment on the new course in Equitable Remedies - Injunctions, however, would be helpful. Equitable Remedies is designed to overlap very little with the basic, traditional course in Remedies. The two courses may be taken in sequence. Although there is something to be said for taking Mr. Schaefer's course first, there is certainly no requirement to that effect. The faculty believes that the full six hour offering in remedies will provide a student with a comprehensive treatment of both legal and equitable remedies.

There will be a number of new faces around the Law School when you return in the fall. The information which follows about each of our new faculty members may be of interest to you.

I should also note that we are planning a symposium on placement and employment prospects. The symposium will be held on Saturday, September 2 at the Law School. We expect to have an interesting and useful program with a number of outside speakers. We will have more detailed information available when you register for classes. In the meantime, please reserve Saturday, September 2 on your schedule.

It has been a quiet summer at the law school. Observing progress on the new building has provided a happy diversion during these quiet, hot days. I hope that your summer has been pleasant and productive. All of us look forward to seeing you again in a few weeks.

Cordially,

  
Timothy J. Sullivan  
Associate Dean

TO ALL STUDENTS:

REGISTRATION

THIRD YEAR (and ML&T) students will register on Tuesday, August 22, 1978.

SECOND YEAR students will register on Wednesday, August 23, 1978.

CLASSES start on Thursday, August 24, 1978.

<u>Students with last name starting with</u>	<u>Hour</u>	<u>Place</u>
N - W	9:00 - 10:00	TBA
W - E	10:30 - 11:30	TBA
F - M	1:00 - 2:00	TBA

Enclosed are the class and examination schedules for fall 1978 and spring 1979, plus a Data Sheet and a work sheet on which to prepare your schedule.

In making plans for the fall semester students are reminded:

1. That courses may not overlap in a time slot.
2. Of the regulation that requires a student to elect in the second and third year courses and/or seminars which satisfy the writing requirement.

They are:

- a. All Seminars
- b. 609 and 610 (note carefully the requirements for those courses especially 610)
- c. Environmental Law I & II (424/425)
- d. Moot Court (1 unit)
- e. Law Review (1 unit)
- f. Business Planning

Thus - 1 unit of Moot Court and 1 seminar or 1 semester of 610 plus 1 unit of Law Review or a similar combination would satisfy the requirement; two units of Moot Court or two units of Law Review would not satisfy the requirement.

3. A full time-law student normally registers for fifteen to seventeen class hours a week. Twenty-six (26) hours a year must be taken. Under certain circumstances students may wish to carry less than the normal full-time class load in a particular semester. Those students should consult with the Associate Dean for Administration.
4. Law students are allowed to take a maximum of six hours in other College departments for law school credit. A determination (by the Dean or his delegate) must be made that the course(s) is related to the student's

professional interest and sufficiently advanced to warrant credit. A grade of "P" will be given upon the receipt of a grade not lower than "B".

- 5. The recent change approved by the faculty at its October, 1977 meeting with regard to the examination schedule;

Students enrolling in courses with two exams scheduled (a) for the same time in one day or (b) in the same day, shall have the right to change one of the exams to a date set pursuant to the following policy:

The student should notify the Law School Office of the conflict within two weeks after the add/drop period and request in writing on a form provided by the office that the exam be rescheduled. The exam should be rescheduled by the office for the next exam period that alleviates the conflict. The change will be made in such a way as to minimize the number of changes in that student's exam schedule.

- 6. Beginning with the class entering in the Fall of 1978, Constitutional Rights and Duties, Law 403, will be a required first year second semester course. Constitutional Rights and Duties will be offered as an upper class course in the Fall Semester of the 1978-79 Academic Year. Thereafter, Constitutional Rights and Duties will be offered only as a first year course. Rising second and third year students who wish to take Constitutional Rights and Duties should, therefore, enroll in the course this Fall.

- 7. For 1978-79 only # 313 Urban Land Use will be taught as a Two Hour course.

Should it be necessary to close a class because of over-enrollment, a "wait list" will be established and scrupulously adhered to in registering additional students for that class. Third year students will, of course, be given preference on the "wait-list".

Students will be handed a number as they enter the registration room, with numbers starting at #1 and going through #150. Students will be called to the registration desk in numerical sequence.

Tuition for the 1978 Fall Semester is due August 1, 1978. Students are requested to bring evidence of having paid tuition with them to registration. We will not register students who have not paid tuition.

NEW COURSES FALL 1978

432 WATER RIGHTS - Mr. Waite (3 semester hours)

The law affecting use of water at all stages in the hydrologic cycle. Riparian rights and the appropriation system; the public interest in water use; water pollution statement; and the allocation of water between states are subjects included.

448 INTELLECTUAL PROPERTY - Mr. Jackson (3 semester hours)

Covers all areas of intellectual property law including copyrights, trademarks, ideas, trade secrets and patents. This body of law is the foundation of industrial property rights, artist's rights, entertainment law, publishing law, communications law, computer law and similar fields.

516 CRIMINAL LAW SEMINAR - Mr. Robertson (3 semester hours)

In-depth examination of diverse public policy considerations involved in currently evolving areas of criminal law and procedure, including: criminalization philosophy, victimless crimes; legal deterrence and drug control legislation; diversion into treatment programs, etc. as an alternative to criminal prosecution; interrelationship of plea bargaining practices and sound judicial administration; breadth of prosecutorial discretion, vis-a-vis judicial control, in the decisions to charge and to prosecute; scope of judicial discretion of the individual trial judge in determining "indigency" and indigents' federal constitutional rights to public services; structuring of judicial discretion in restrictive sentencing legislation and proposals; and civil death consequences of a criminal conviction vis-a-vis correctional philosophy.

550 ENERGY LAW - Mr. Reveley and Mr. Irwin (3 semester hours)

The seminar will begin with a quick look at the shape and depth of this country's principal energy difficulties. There will follow more detailed consideration of (1) selected attempts by the White House, agencies, courts and Congress to cope with these difficulties, and (2) the reaction of certain private interests to such governmental initiatives. Attention throughout will go to the sort of decision-making that has evolved since passage of the National Environmental Policy Act in 1970. Case studies will focus on the nuclear and coal industries. Pervasive at all times will be the sweeping entanglement of energy issues with lawyers -- via the workings of laws and regulations, both actual and proposed, adjudicatory proceedings, both judicial and administrative, as well as more informal regulatory measures.
