The controversial Bakke Case will have ramifications reaching far beyond Allen Bakke's denial of admission to Medical School. The case is likely to shape our society's perspective on affirmative action. It is, indeed, one of the most important cases since Brown v. Bd. of Education in 1954.

Professor Van Alstyne is the William R. Perkins Professor of Law at Duke University. This semester he is a Visiting Professor of Law at the Marshall-Wythe School of Law (Williamsburg, Virginia). Professor Van Alstyne's nationally recognized status in Constitutional Law will certainly provide depth and insight into this important case.

Everyone's Welcome
