

Resilience Planning in Southeastern Coastal States

Virginia Coastal Policy Center Conference

15 November 2019

Norfolk

- Second only to New Orleans in risk from sea level rise
- 100 Resilient Cities member
- Thought leader in planning and zoning for resilience
 - *Vision 2100*
 - *Building a Better Norfolk*
- Bold approaches encouraged
- Choose what is right over what is easy

Framing Questions

- How do we overcome planning fatigue?
- How do we deal with political resistance?
- Where will the funding for needed capital investment come from?
- Where is the “center of gravity” for resilience planning/execution?
- What is the role for the private sector and NGOs?
