Mr. DAVIES said some remarks in reply to Mr. TYLER, that he had some objections to the bill as it stood. He said that the bill was not a bill for the regulation of commerce, but for the encouragement of manufactures. He considered it as a measure to enable the manufacturers of this country to keep up their style of living, and to enable them to pay the taxes imposed upon them. He thought that the bill should be amended so as to apply to all parts of the country, and not only to the manufacture of woollen cloth.

Mr. SMITH moved to strike out the words, "as it is now presented," in the announcement of the bill. He said that it would be more in the interest of the country if the bill was amended so as to apply to all parts of the country, and not only to the manufacture of woollen cloth.

Mr. FITZGERALD said that the bill was a measure to encourage the manufacture of woollen cloth, and that it should be amended so as to apply to all parts of the country, and not only to the manufacture of woollen cloth.

Mr. CLAY said that the bill was a measure to encourage the manufacture of woollen cloth, and that it should be amended so as to apply to all parts of the country, and not only to the manufacture of woollen cloth.
